Suzhou RAPID Precision Mould Co., Ltd

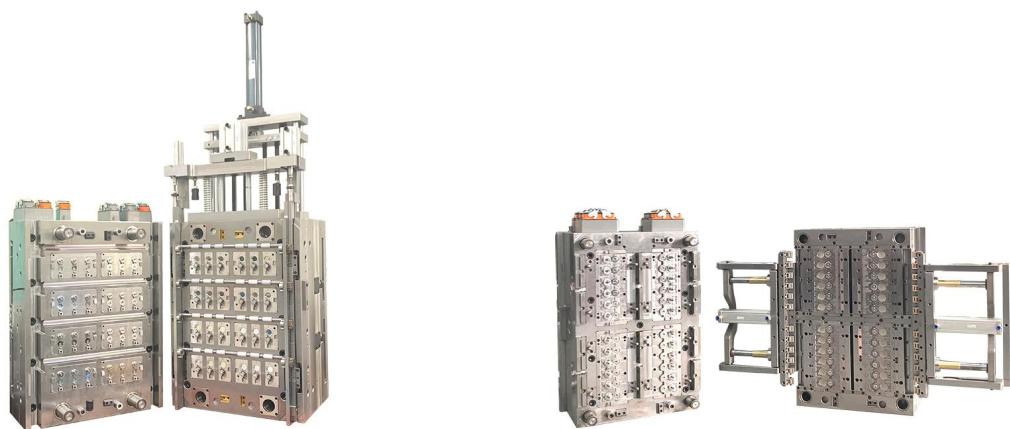

PRODUCT

[Suzhou RAPID Precision Mould Co., Ltd.](#) is an enterprise dedicated to design and manufacture new type of precision fast cycle mould which was widely used in medical, , food & beverage packaging, cosmetics packaging, automotive parts, bi-color injection moulding. As a professional China Injection Mould Manufacturers and China Injection Mould Factory, we focus on developing high-quality products for top-end markets. With more than 30 years' experience in the industry, we innovate to manufacturing one batch of plastic injection moulds with high quality, high difficulty, high efficiency, multicavity and long life for our customers. Our products are in line with international standards, and are mainly exported to Europe, America, Russia and other destinations around the world.

Cap & closure mould Manufacturers

We have designed and made moulds for almost all types of plastic caps and closures, so we have very rich experience in mould making. The main types of caps and closures which we have made are quick-running jumped-off caps (with or without tamper evident), unscrewed closures with quality thread, FT closures (with IMC), childproof closures, disc top caps & push-pull caps and so on.

Daily chemical & cosmetics packaging mould Manufacturers

Our molds are widely used in daily chemical products packaging, body care and cosmetic packaging and so on. Our cooperation brands are P&G, Johnson & Johnson, L 'Oreal, Mary Kay, Avon, Perea, etc. The products produced with our mold not only have excellent polishing, but also have perfect fitting and handfeel for each part.
